FUTURE FEATURES

ELEVATOR PITCH

Gift Selector is a gift-finding service that helps you find the perfect gift for any occasion. Simply tell us the occasion, the relationship you have with the person, and your budget, and we'll give you a list of personalized gift suggestions.

Gift Selector is the perfect solution for anyone who wants to find the perfect gift without the stress.

DESCRIPTION

login

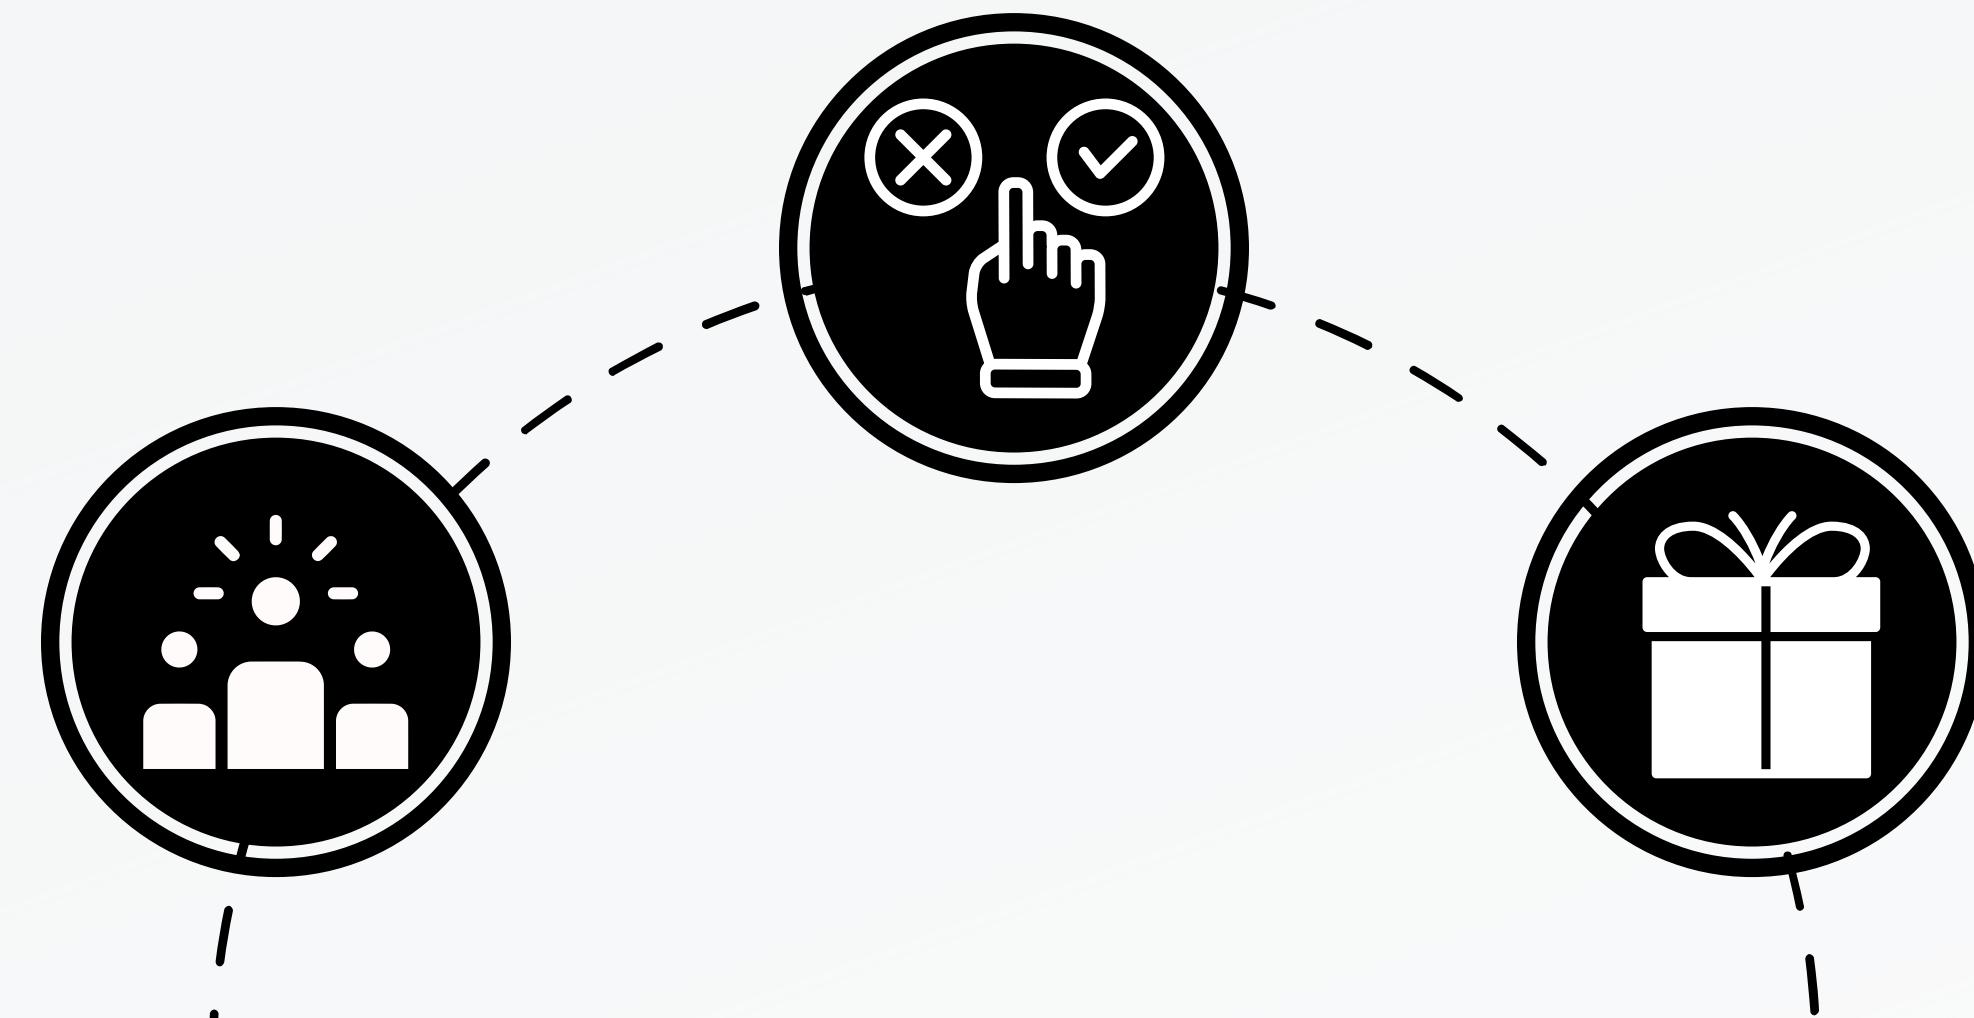

enables users to gain access to their accounts and interact with their past gift selections

database

Using a form to collect specific criteria and occasion details allows efficient searching and filtering of gifts across a wide range of prices.

gift selector

The Gift Selector populates gift options and enables saving searches for future occasions.

PROS & CONS

Pros

- The project is complete and meets all requirements, well-planned and organized, on track and meeting its goals and objectives
- Good group communication: listen to others, share ideas, honest.
- Having a project manager helped us to have a concise communication, organized tasks effectively.

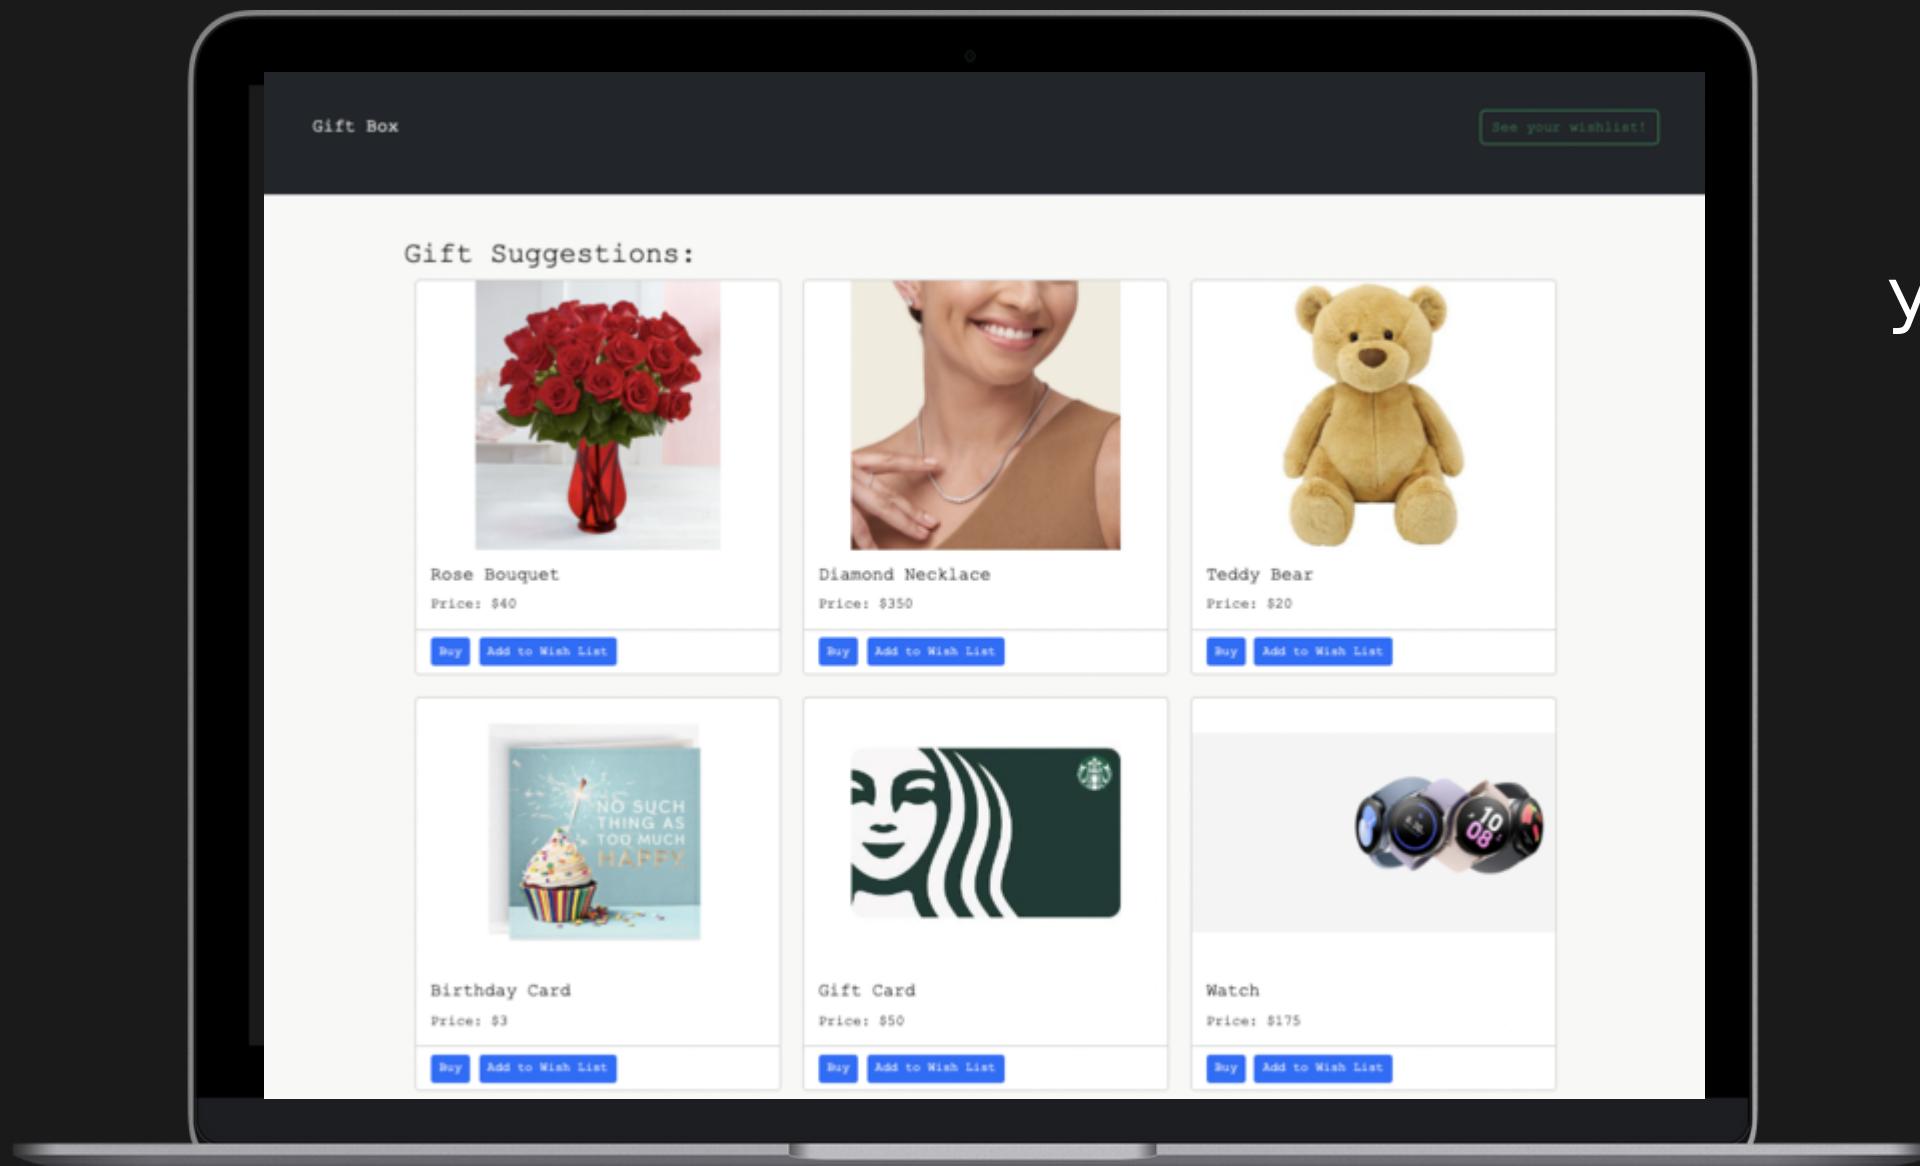

- Difficulties in moving data around from different pages.
- Sanitizing data from GET requests.
- Difficulty in assigning tasks efficiently to 5
- Lack of visibility into the database structure and logic, making troubleshooting and debugging frustrating.
- Complex and time-consuming process to test email functionality.

Cons

Do you ever find
yourself stressed out
about finding the
perfect gift for a
special occasion?

You're not alone.

Try Gift Selector!

FUTURE FEATURES

- **Integration with other databases :**
Our website will soon integrate with other databases, such as Yelp, Open Table, Etsy, and Amazon. This will enhance the website's recommendation system, providing access to a wide range of products and enabling features like "100 best gifts for women" without the need to build our own extensive database.
- **Message generator:**
It would make it easy for users to find the perfect message for any occasion, and it would help to ensure that their gifts are truly meaningful.
- **Reminder:**
This feature will allow users to set reminders for upcoming special occasions, such as birthdays, anniversaries, and holidays. When the reminder is triggered, the user will be notified of the occasion and who it is for. This will allow the user to pick the perfect gift for the occasion.

Thank You
